Personal Information

Date of birth: 14-04-2000

State of origin: Rivers

Nationality: Nigerian

Gender: Female

Marital Status: Single

Language

- English

Education

All Nations University College
Bachelor of Science (Computer Science) - ***First Class***
2015 - 2019

Experience

Frontend Developer (ReactJs)
100Pay - 2024

In my role as a web developer,
- I create responsive websites using Next.js, ShadCN, and Tailwind CSS, making sure they work well on all devices.
- I build reusable templates to keep our work consistent and speed up development.
- I use Axios to get data from external sources easily and manage the application state with Redux Toolkit, which helps keep the code organized.
- I work with GraphQL to fetch only the data we need, reducing waste.
- One of my key projects involved developing an admin dashboard that shows website analytics and lets users manage their accounts.
- I follow SEO best practices to help our websites rank higher in search engines and use analytics tools to track how users interact with the sites.
- I enjoy collaborating with designers and other developers to create high-quality web applications.

Frontend Developer
Akawo.me Synergy Limited - 2021 - 2023

- I developed and maintained dynamic web applications using React.js, focusing on delivering a seamless user experience. In addition to coding.
- I managed the front-end planning process to ensure that project requirements were met effectively and efficiently.
- I implemented best practices for front-end development that prioritized not only functionality but also cross-browser compatibility and mobile responsiveness, making certain that users have consistent experiences regardless of their device or browser choice.

Expertise

- Management Skills
- Creativity
- ReactJs / NextJs
- SEO
- Critical Thinking
- Redux / Context API
- Team Work
- Communication

Junior Web Developer (Intern)
ANUTechnologies, ANUC - 2017 - 2019

- I developed custom HTML, CSS, and JavaScript solutions for a variety of websites, tailoring each to meet specific user needs and design requirements.
- In addition, I played a key role in creating and managing student network profiles and accounts, ensuring a seamless onboarding process. My work also involved implementing best practices to enhance user experience, maintain data integrity, and promote efficient navigation across the platform.
